Contributors.....	2
Acknowledgments.....	2
Feedback.....	2
Publication date and software version.....	2
<b>Preface.....</b>	<b>16</b>
Who is this book for?.....	17
What's in this book?.....	17
Minimum requirements for using LibreOffice.....	17
How to get LibreOffice.....	18
Installing LibreOffice.....	18
Setting up and customizing LibreOffice.....	18
Extensions and add-ons.....	18
Where to get more help.....	18
Help system.....	18
Other free online support.....	19
Paid support and training.....	19
What you see may be different.....	20
Illustrations.....	20
Icons.....	20
Using LibreOffice on macOS.....	20
Acknowledgments.....	21
Frequently asked questions.....	21
<b>Chapter 1 Introducing Writer.....</b>	<b>22</b>
What is Writer?.....	23
Parts of the main Writer window.....	23
Title bar.....	23
Menu bar.....	23
Sidebar.....	24
Toolbars.....	27
Rulers.....	29
Status bar.....	29
Context (right-click) menus.....	32
Dialogs.....	32
Document views.....	32
Normal view.....	32
Web view.....	32
Full Screen view.....	32
Starting a new document.....	33
From the Start Center.....	33
From the Quickstarter.....	33
From the operating system menu.....	34
From the Menu bar, toolbar, or keyboard.....	34
From a template.....	34
Opening an existing document.....	35
Saving a document.....	36
Save commands.....	36

Save As command.....	36
Saving a document automatically.....	37
Saving as a Microsoft Word document.....	37
Password protection.....	37
Opening and saving files on remote servers.....	39
Using the Navigator.....	39
Moving quickly through a document.....	40
Using the Navigation toolbar.....	41
Rearranging headings and text using the Navigator.....	42
Setting reminders.....	42
Choosing drag modes.....	43
Undoing and redoing changes.....	43
Reloading a document.....	43
Closing a document.....	44
Closing LibreOffice.....	44
<b>Chapter 2 Working with Text: Basics.....</b>	<b>45</b>
Introduction.....	46
Selecting text.....	46
Selecting items that are not consecutive.....	46
Selecting a vertical block of text.....	47
Cutting, copying, and pasting text.....	47
Finding and replacing text.....	48
Using the Find toolbar.....	48
Using the Find & Replace dialog.....	49
Inserting special characters.....	50
Inserting non-breaking spaces and hyphens.....	51
Inserting en and em dashes.....	51
Checking spelling and grammar.....	52
Spelling.....	52
Spelling and grammar.....	53
Grammar.....	54
English sentence checking.....	55
Using synonyms and the thesaurus.....	57
Hyphenating words.....	58
Automatic hyphenation.....	58
Manual hyphenation.....	59
Using AutoCorrect.....	60
Using Word Completion.....	60
Using AutoText.....	61
Creating AutoText.....	62
Inserting AutoText.....	63
Printing a list of AutoText entries.....	63
Changing the case of selected text.....	63
<b>Chapter 3 Working with Text: Advanced.....</b>	<b>65</b>
Introduction.....	66
Using built-in language tools.....	66
Using paragraph and character styles.....	66
Using Tools > Language.....	67
Using language settings in Options.....	67

Using the status bar.....	68
Advanced find and replace techniques.....	68
Find and replace text attributes and formatting.....	69
Find and replace paragraph styles.....	69
Use similarity search.....	70
Use wildcards and regular expressions.....	70
Tracking changes to a document.....	71
Preparing a document for review.....	72
Recording changes.....	72
Accepting or rejecting changes.....	73
Comparing documents.....	74
Merging modified documents.....	74
Adding other comments.....	75
Using footnotes and endnotes.....	76
Inserting footnotes and endnotes.....	76
Defining the format of footnotes/endnotes.....	77
Linking to another part of a document.....	77
Using cross-references.....	78
Using bookmarks.....	78
Using hyperlinks.....	78
Line numbering.....	80
<b>Chapter 4 Formatting Text.....</b>	<b>83</b>
Introduction.....	84
Using styles is recommended.....	84
Removing manual formatting.....	84
Formatting paragraphs.....	84
Alignment options.....	86
Line and paragraph spacing.....	87
Paragraph indentation.....	88
Paragraph background color.....	88
Settings on the Paragraph dialog.....	89
Setting tab stops and indents.....	91
Changing the default tab stop interval.....	92
Formatting characters.....	92
Font name, size, and effects.....	93
Settings on the Character dialog.....	94
Autoformatting.....	97
Formatting numbered or bulleted lists.....	99
Using the Bullets and Numbering toolbar.....	99
Using the Bullets and Numbering palettes on the Sidebar.....	100
Using the Bullets and Numbering dialog.....	101
More information.....	102
<b>Chapter 5 Formatting Pages: Basics.....</b>	<b>103</b>
Introduction.....	104
Setting up basic page layout using styles.....	104
Inserting a page break without changing the page style.....	105
Inserting a page break and changing to a new page style.....	105
Changing page margins.....	106
Creating headers and footers.....	107
Using fields in headers and footers.....	108

Formatting headers and footers.....	108
Numbering pages.....	109
Simple page numbering.....	110
Combining header text and page number.....	110
Changing the number format.....	111
Numbering pages by chapter.....	111
Numbering the first page something other than 1.....	112
Defining a different first page for a document.....	113
Adding title pages.....	113
Restarting page numbering.....	114
Formatting footnotes and endnotes.....	116
Defining footnote location and separator line.....	116
Defining borders and backgrounds.....	117
Adding a border.....	117
Adding a color to the background.....	118
Adding a gradient to the background.....	119
Adding a bitmap (i,age) to the background.....	119
Adding a pattern or hatching to the background.....	120
Deleting a color, gradient, bitmap, or other background.....	121
Adjusting the transparency of the background.....	121
<b>Chapter 6 Formatting Pages: Advanced.....</b>	<b>122</b>
Introduction.....	123
Choosing a layout method.....	123
Using columns to define the page layout.....	124
Formatting column width and spacing.....	124
Formatting separator lines.....	125
Distributing text across columns.....	125
Using frames for page layout.....	125
Creating frames.....	126
Moving, resizing, and changing frame attributes.....	126
Anchoring frames.....	128
Linking frames.....	128
Using tables for page layout.....	129
Positioning information in headers or footers.....	130
Creating sideheads using tables.....	130
Using sections for page layout.....	132
Creating sections.....	132
Editing and deleting sections.....	137
Updating links.....	138
Changing page orientation within a document.....	139
Setting up a landscape page style.....	139
Inserting a landscape page into a portrait document.....	140
Portrait headers on landscape pages.....	141
<b>Chapter 7 Printing, Exporting, E-mailing.....</b>	<b>144</b>
Introduction.....	145
Quick printing.....	145
Controlling printing.....	145
Selecting general printing options.....	146
Printing multiple pages on a single sheet of paper.....	146
Selecting what to print.....	147
Printing a brochure.....	148

Printing in black and white (on a color printer).....	149
Previewing pages before printing.....	150
Printing envelopes.....	150
Printing labels.....	153
Exporting to PDF.....	153
Quick export to PDF.....	153
Controlling PDF content and quality.....	153
Exporting to ePub.....	160
Exporting to other formats.....	160
E-mailing Writer documents.....	160
E-mailing a document to several recipients.....	161
Sending a fax.....	163
Digital signing of documents.....	163
Signing multiple times with same signature.....	164
Removing personal data.....	165
<b>Chapter 8 Introduction to Styles.....</b>	<b>166</b>
What are styles?.....	167
Why use styles?.....	167
Style categories.....	167
The Styles deck in the sidebar.....	167
Filtering the visible styles.....	168
Applying styles.....	168
Applying paragraph styles.....	168
Applying character styles.....	170
Applying frame styles.....	171
Applying page styles.....	171
Applying list styles.....	177
Applying table styles.....	178
Assigning styles to shortcut keys.....	178
Creating and modifying styles.....	178
Using New Style from Selection, Update Style, and Load Styles.....	178
Drag-and-drop a selection to create a style.....	181
Changing a style using the Style dialog.....	181
Using AutoUpdate.....	181
Deleting styles.....	181
Example: creating and modifying paragraph styles.....	182
Creating the Poem paragraph style.....	182
Creating the Poem Heading style.....	183
Changing the formatting of your styles.....	184
Using paragraph styles to define a hierarchy of headings.....	185
Choosing paragraph styles for heading levels.....	185
Assigning outline levels to other styles.....	185
Setting up heading numbering.....	186
Setting up the indentation of headings.....	188
<b>Chapter 9 Working with Styles.....</b>	<b>190</b>
Introduction.....	191
Creating custom (new) styles.....	191
Style dialog.....	191
Organizer page.....	191
Style inheritance.....	192

Working with paragraph styles.....	193
Indents & Spacing page.....	193
Alignment page.....	195
Text flow options for paragraph styles.....	196
Font options for the paragraph style.....	197
Options for positioning text.....	199
Controlling tab stops.....	200
Outline & Numbering page.....	201
Setting up a drop cap.....	201
Background (area), highlighting, and transparency.....	202
Borders.....	203
Using conditional paragraph styles.....	203
Working with character styles.....	204
Creating a new character style.....	205
Working with frame styles.....	205
How frame styles work.....	206
Planning the styles.....	206
Creating new frame styles.....	207
Working with page styles.....	207
Creating a new page style.....	207
Organizer page.....	207
General settings for the page style.....	207
Area and Border pages.....	209
Header and Footer pages.....	209
Columns page.....	209
Footnote page.....	209
Working with list styles.....	209
Creating a new list style.....	210
Example: Creating a simple list style.....	213
<b>Chapter 10 Working with Templates.....</b>	<b>215</b>
Introduction.....	216
Using a template to create a document.....	216
Creating a document from the Templates dialog.....	216
Creating a document from a template in the Start Center.....	217
Creating a template.....	217
Creating a template from a document.....	217
Creating a template using a wizard.....	218
Editing a template.....	218
Updating a document from a changed template.....	219
Adding templates obtained from other sources.....	219
Installing individual templates.....	219
Installing collections of templates.....	220
Setting a default template.....	220
Setting a template as the default.....	220
Resetting Writer's default template as the default.....	221
Associating a document with a different template.....	221
Organizing templates.....	222
Creating a template category.....	222
Deleting a template category.....	222
Moving a template.....	223
Deleting a template.....	223
Importing a template.....	223

Exporting a template.....	223
<b>Chapter 11 Images and Graphics.....</b>	<b>224</b>
Images (graphics) in Writer.....	225
Creating and editing images.....	225
Preparing images for black-and-white printing.....	225
Adding images to a document.....	226
Inserting an image file.....	226
Linking an image file.....	227
Scanning.....	229
Inserting an image from the Gallery.....	229
Inserting an image as a background.....	229
Modifying, handling, and positioning images.....	230
Using the Picture toolbar.....	230
Using the Formatting toolbar and Image dialog.....	231
Cropping images.....	231
Resizing an image.....	233
Rotating or flipping an image.....	234
Other settings.....	234
Deleting an image.....	235
Exporting images.....	235
Compressing images.....	235
Saving modified images.....	235
Using Writer's drawing tools.....	236
Creating drawing objects.....	236
Setting or changing properties for drawing objects.....	237
Resizing a drawing object.....	237
Grouping drawing objects.....	237
Rotating drawing objects.....	238
Positioning images within the text.....	238
Arranging images.....	239
Anchoring images.....	240
Aligning images.....	240
Wrapping text around images.....	241
Adding captions to images.....	245
Adding captions automatically.....	245
Adding captions using the Caption dialog.....	246
Adding captions manually.....	247
Creating an image map.....	248
Managing the LibreOffice Gallery.....	250
Adding objects to the Gallery.....	250
Deleting images from the Gallery.....	251
Adding a new theme to the Gallery.....	251
Deleting a theme from the Gallery.....	252
Location of the Gallery and the objects in it.....	252
Using Fontwork.....	252
Creating a Fontwork object.....	252
Editing a Fontwork object.....	253
Moving and resizing Fontwork objects.....	255
<b>Chapter 12 Lists: Tips and Tricks.....</b>	<b>256</b>
Introduction.....	257
Types of list.....	257

Bullet lists.....	257
Numbered lists.....	258
Outline lists.....	259
Combining list and paragraph styles.....	260
Restarting paragraph numbering.....	261
Nesting lists.....	262
Outlining with paragraph styles.....	262
Creating outlines with a single paragraph style.....	263
Adding paragraph styles to outline levels.....	263
Skipping a paragraph in a list.....	263
Applying list styles.....	264
Restarting or continuing the numbering.....	264
Naming list styles.....	265
Formatting list styles.....	265
Positioning bullets, numbers, and list items.....	266
Formatting ordered (numbered) lists.....	267
Designing unordered (bulleted) lists.....	270
Using images as bullets.....	271
<b>Chapter 13 Tables of Data.....</b>	<b>277</b>
Introduction.....	278
Creating a table.....	278
Inserting a new table.....	278
Creating nested tables.....	279
Using AutoCorrect to create a table.....	280
Formatting the table layout.....	281
Default parameters.....	281
Resizing and positioning the table.....	282
Resizing rows and columns.....	283
Resizing individual cells.....	284
Inserting rows and columns.....	285
Deleting rows and columns.....	285
Merging and splitting cells.....	286
Specifying table borders.....	286
Selecting background colors and graphics.....	287
Displaying or hiding table boundaries.....	289
Creating and applying table styles.....	289
Applying a table style.....	290
Creating a table style.....	290
Formatting the table text.....	291
Specifying text flow.....	291
Vertical alignment.....	292
Number formats.....	292
Rotating text in a table cell.....	293
Data entry and manipulation in tables.....	294
Moving between cells.....	294
Sorting data in a table.....	294
Using spreadsheet functions in a table.....	295
Additional table operations.....	297
Protecting cells in a table.....	297
Adding a caption.....	297
Cross-referencing to a table.....	297
Creating a heading row in an existing table.....	297

Merging and splitting tables.....	297
Deleting a table.....	298
Copying a table.....	298
Moving a table.....	298
Inserting a paragraph before or after a table.....	299
Using tables as a page layout tool.....	299
The Table menu and Table toolbar.....	299
<b>Chapter 14 Mail Merge.....</b>	<b>301</b>
What is mail merge?.....	302
Creating and registering an address data source.....	302
Creating a form letter.....	304
Editing merged documents.....	307
Printing mailing labels.....	307
Preparing for printing.....	308
Removing blank lines from labels.....	310
Printing.....	311
Editing a saved file of mailing labels.....	311
Printing envelopes.....	312
Setting up envelopes for printing.....	312
Merging and printing the envelopes.....	313
Creating an envelope template.....	313
Using the Mail Merge Wizard to create a form letter.....	313
Step 1: Select starting document.....	313
Step 2: Select document type.....	314
Step 3: Insert address block.....	314
Step 4: Create salutation.....	318
Step 5: Adjust layout.....	319
Step 6: Edit document and insert extra fields.....	320
Step 7: Personalize documents.....	321
Step 8: Save, print or send.....	322
<b>Chapter 15 Tables of Contents, Indexes, Bibliographies.....</b>	<b>324</b>
Introduction.....	325
Tables of contents.....	325
Creating a table of contents quickly.....	325
Customizing a table of contents.....	326
Editing a table of contents.....	332
Updating a table of contents.....	333
Deleting a table of contents.....	333
Alphabetic indexes.....	334
Adding index entries.....	334
Creating a concordance.....	336
Creating an alphabetic index quickly.....	336
Customizing an index.....	337
Maintaining an index.....	341
Other types of indexes.....	341
Example: Creating an index of figures.....	342
Bibliographies.....	343
Creating a bibliographic database.....	343
Adding entries to the database.....	345
Maintaining entries in the database.....	345
Advanced: Modifying the bibliographic database.....	345

Adding references (citations) into a document.....	347
Editing a reference.....	349
Creating the bibliography.....	349
Defining the paragraph style for the bibliography.....	351
Updating, editing, and deleting an existing bibliography.....	353
<b>Chapter 16 Master Documents.....</b>	<b>354</b>
Why use a master document?.....	355
Using the master document Navigator.....	355
Styles in master documents and subdocuments.....	356
Creating a master document: scenarios.....	356
Starting with no existing documents.....	356
Step 1. Plan the project.....	357
Step 2. Create a template.....	357
Step 3. Create the master document.....	358
Step 4. Create subdocuments.....	358
Step 5. Add some pages to the master document.....	358
Step 6. Insert the subdocuments into the master document.....	359
Step 7. Add table of contents, bibliography, index.....	360
Combining several documents into a master document.....	361
Splitting a document into master and subdocuments.....	363
Restarting page numbering.....	364
Editing a master document.....	365
Changing the appearance of the master document.....	365
Editing subdocuments.....	365
Adding, deleting, or renaming subdocuments.....	366
Cross-referencing between subdocuments.....	366
Preparing items as targets for cross-referencing.....	366
Inserting the cross-references.....	368
Creating a master document template.....	370
Creating one file from a master document and its subdocuments.....	370
Anchoring images.....	371
<b>Chapter 17 Fields.....</b>	<b>372</b>
Introduction to fields.....	373
Keyboard shortcuts for fields.....	373
Quick and easy field entry.....	373
Using document properties to hold metadata and information that changes.....	373
Using other fields to hold information that changes.....	375
Using AutoText to insert often-used fields.....	376
Defining your own numbering sequences.....	376
Create a number range variable.....	377
Use AutoText to insert a number range field.....	378
Using automatic cross-references.....	379
Inserting cross-references.....	380
Available formats.....	380
Preparing items as targets for cross-referencing.....	381
Using fields in headers and footers.....	382
Developing conditional content.....	383
Choose the types of conditional content to use.....	383
Plan your conditional content.....	384

Create the variable.....	384
Apply the condition to the content.....	385
Change the value of the variable.....	389
Using placeholder fields.....	389
Using other fields.....	390
<b>Chapter 18 Forms.....</b>	<b>391</b>
Introduction.....	392
When to use forms.....	392
Alternatives to using forms in Writer.....	392
Creating a simple form.....	392
Create a document.....	393
Open the form toolbars.....	393
Activate design mode.....	393
Insert form controls.....	393
Configure controls.....	394
Use the form.....	394
Form controls reference.....	395
Example: a simple form.....	398
Create the document.....	398
Add form controls.....	398
Configure form controls.....	399
Finishing touches.....	401
Accessing data sources.....	401
Creating a database.....	402
Registering an existing data source.....	404
Deregistering a data source.....	404
Re-registering an existing data source.....	405
Creating a form for data entry.....	405
Entering data into a form.....	406
Advanced form customization.....	407
Linking a macro to a form control.....	407
Read-only documents.....	408
Fine-tuning database access permissions.....	408
Form control formatting options.....	409
<b>Chapter 19 Spreadsheets, Charts, Other Objects.....</b>	<b>410</b>
Introduction: OLE objects.....	411
Inserting a new OLE object.....	411
Inserting an OLE object from a file.....	412
Editing OLE objects.....	412
Spreadsheets.....	412
Resizing and moving spreadsheet objects.....	413
Editing a spreadsheet object.....	413
Formatting spreadsheets.....	415
Charts.....	417
Inserting a chart.....	417
Selecting chart type.....	417
Entering chart data.....	419
Adding or removing chart elements.....	419
Chart formatting.....	419
Resizing and moving charts.....	420
Chart elements.....	420

Changing chart area background.....	421
Changing chart wall background.....	421
Audio and video.....	421
Using media files.....	421
Using the Gallery.....	422
Media playback.....	422
Formulas.....	422
<b>Chapter 20 Setting up Writer.....</b>	<b>423</b>
Introduction.....	424
Choosing options that affect all LibreOffice components.....	424
User data.....	424
Memory options.....	424
View options.....	424
Print options.....	425
Paths options.....	425
Fonts options.....	425
Security options.....	426
Application colors.....	426
Choosing options for loading and saving documents.....	427
General.....	427
Microsoft Office.....	429
HTML compatibility.....	429
Choosing Writer-specific options.....	429
General options.....	429
View options.....	430
Formatting Aids options.....	431
Grid options.....	431
Print options.....	431
Table options.....	432
Changes options.....	433
Comparison options.....	433
Compatibility options.....	434
AutoCaption options.....	435
Mail Merge E-mail options.....	436
Choosing language settings.....	436
Install the required dictionaries.....	436
Change some locale and language settings.....	437
Sentence checking.....	437
Choose spelling and grammar options.....	438
English sentence checking.....	438
<b>Chapter 21 Customizing Writer.....</b>	<b>439</b>
Introduction.....	440
Customizing menu content.....	440
Creating a new menu.....	441
Customizing toolbars.....	442
Choosing icons for toolbar commands.....	442
Assigning shortcut keys.....	443
Saving changes to a file.....	444
Loading a saved keyboard configuration.....	444
Assigning macros to events.....	444
Adding functionality with extensions.....	444

Installing extensions.....	445
Adding custom colors.....	446
Adding fonts.....	447
Finding free-licensed fonts.....	447
